## Start Building

To begin your model, find the **1** and follow the numbers. Just look at the pictures, find the pieces in your set that match and then connect them together. Try to face your model in the same direction as the instructions while you build. The arrows show you where the parts connect, but not all connections points have arrows. Faded colors show you this section is already built.

## Spacers

There are places in your model where you need to use spacers. Be sure to use the correct number of spacers shown in the instructions.

## Connectors

You can slide these special connectors together. Push tightly until you hear a "click". Pay close attention to the instructions and position them horizontally or vertically exactly as they are shown.
