# K'nex Building Basics

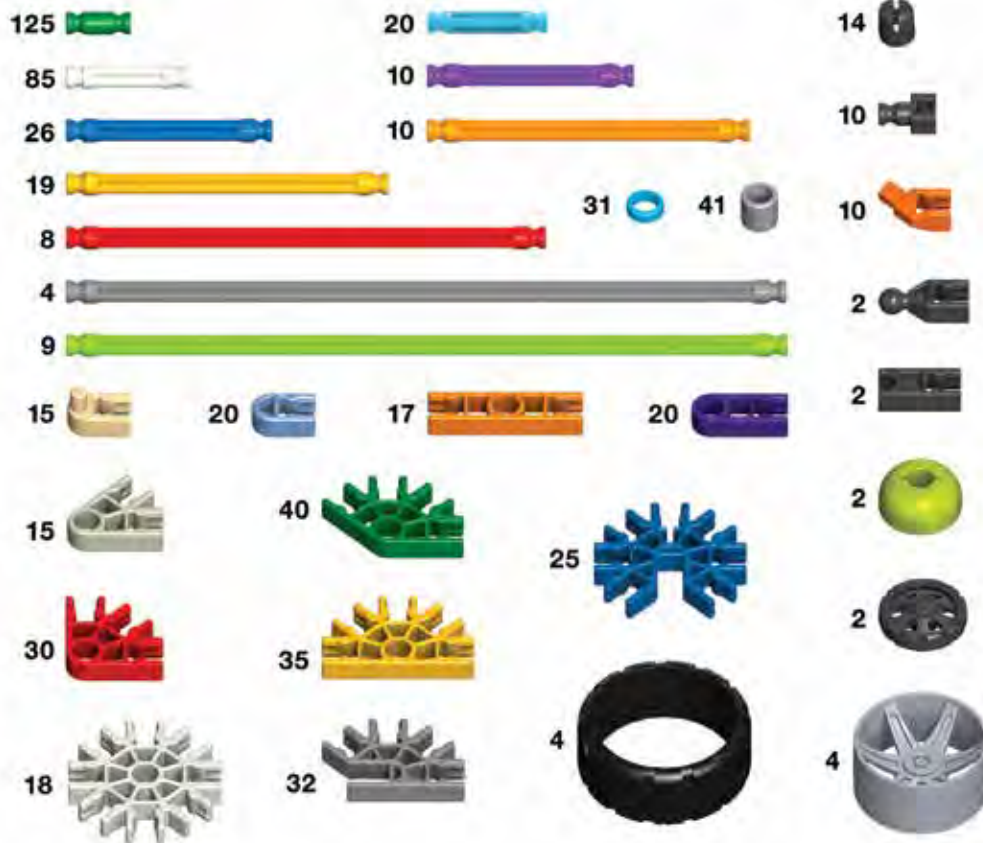

## Start Building

To begin your model, find the 1 and follow the numbers. Each piece has its own shape and color. Just look at the pictures, find the pieces in your set that match and then connect them together. Try to face your model in the same direction as the instructions while you build. The arrows show you where the parts connect, but not all connections points have arrows. Faded colors show you this section is already built.

## Parts List

Before you start building, be sure to compare the parts in your set with the parts list here. If anything is missing, call or write to us using the information on the back cover. We are here to help you!

## Spacers

There are places in your model where you need to use spacers. Be sure to use the correct number of spacers shown in the instructions.

## Connectors

You can slide these special connectors together. Push tightly until you hear a "click". Pay close attention to the instructions and position them horizontally or vertically exactly as they are shown.

## Flexi-rod

A Flexi-rod is a rod that you bend to make curves. It will be easier to attach to your model if you bend it back and forth first.

## Esenciales de construcción K'NEX

### Para comenzar a construir

Para comenzar el modelo, encuentre el número 1 del paso y siga los números. Cada pieza tiene su propia forma y color. Observe las imágenes, encuentre las piezas que sean iguales a las que se muestran y conéctelas. Colocar el modelo en la misma dirección que se encuentra en las instrucciones le facilitará la construcción. Las flechas muestran en dónde se conectan las piezas, pero no todos los puntos de conexión tienen flechas. Las partes de color tenue son las que ya armó.

### Separadores

Hay lugares en su modelo donde usted necesita utilizar espaciadores. Asegúrese de usar el color correcto y el número de espaciadores que se muestra en las instrucciones.

### Conectores

Usted puede deslizar estos conectores especiales juntos. Empuje firmemente hasta que oiga un "clic". Preste atención a las instrucciones y la posición horizontal o verticalmente, exactamente como se muestran.

### Varillas flexibles

Una Varilla Flexible es una Varilla que se puede doblar para formar curvas. Serán más fáciles de conectar a tu modelo si primero las doblas hacia atrás y hacia adelante.

## Grundlegende Bauanleitungen für K'NEX

### Los geht's mit dem Bauen

Um mit dem Bauen deines Modells zu beginnen, suche die Nummer 1 und folge den laufenden Nummern. Jedes Teil hat seine eigene Form und Farbe. Schau dir einfach die Abbildungen an, such

die Teile in deinem Bausatz, die so aussehen wie das, was du auf der Abbildung siehst und steck sie ineinander. Versuche, dein Modell beim Zusammenbauen so zu orientieren, dass es in die gleiche Richtung weist, wie es in den Anleitungen beschrieben und gezeigt wird. Blasse Farben weisen darauf hin, dass dieser Streckenabschnitt bereits zusammengebaut ist.

### Abstandsstücke

An manchen Stellen in deinem Modell musst du Abstandsstücke einbauen. Achte darauf, die richtige Farbe und Anzahl von Abstandsstücken wie in der Anleitung gezeigt zu verwenden.

### Verbindungsstücke

Verbindungsstücke haben besonders lange Schlitze. Wie du auf der Abbildung sehen kannst, lassen sie sich ineinander schieben. Achte beim Aneinanderfügen dieser Teile darauf, dass du ein Klickgeräusch hörst. Erst dann sind die Teile fest miteinander verbunden.

### Flexi-Laschen

Eine Flexi-Lasche ist eine Lasche, die du zu einer Kurve zurechtbiegen kannst. Sie lassen sich leichter an dein Modell anschließen, wenn du sie mehrmals hin- und herbiegst, um sie flexibler zu machen, bevor du sie das erste Mal benutzt.
