Building Basics

Bases de Construction

Start Building

To begin your model, find the pieces and follow the numbers. Each piece has its own shape and color. Just look at the pictures, find the pieces in your set that match and then connect them together. Try to build your model in the same direction as the instructions while you build. The arrows show you where the pieces connect, but not all connections points have arrows. Faded colors show you this section is already built.

Dømarre ta Construction

Pour commencer le modøle, cherchez l øtats numøros et suivez les numøros dans l ordre. Chaque piéce a sa propre forme et sa propre couleur. Regardez les illustrations, trouvez les piéces qui y correspondent et assemblez-les. Pour vous faciliter la t che, construisez votre modøle dans le møme sens que les instructions.

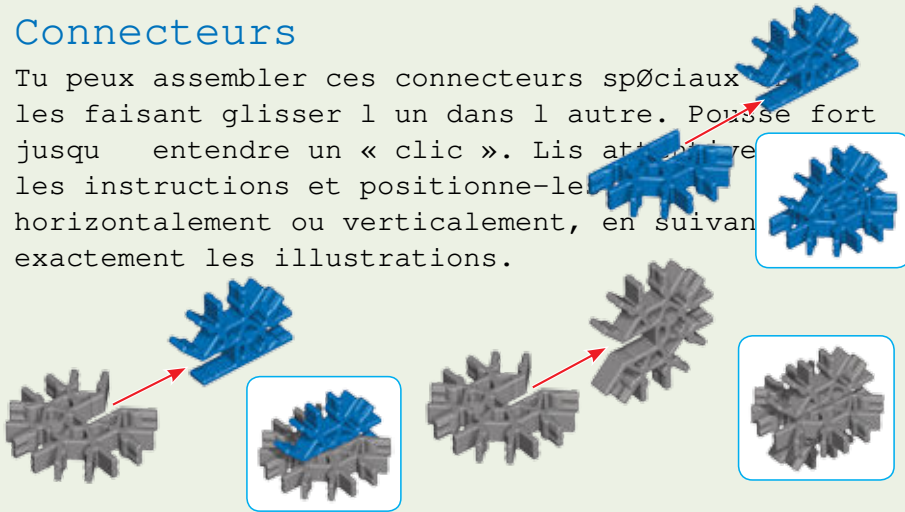

Les flèches indiquent oø les piéces s'assemblent, mais tous les points de raccordement n'ont pas tous des flèches. Les piéces ayant une couleur estompøe sont celles qui ont déjà été assembløes.

Connectors

You can slide these special connectors together. Push tight until you hear a click. Pay close attention to the instructions and position them horizontally or vertically exactly as they are shown.
