BUILDING BASICS

BASES DE LA CONSTRUCTION

Start Building

To begin your model, find the **1** and follow the numbers. Each piece has its own shape and color. Just look at the pictures, find the pieces in your set that match and then connect them together. Try to face your model in the same direction as the instructions while you build. The arrows show you where the parts connect, but not all connections points have arrows. Faded colors show you this section is already built.

Démarre ta Construction

Pour commencer ton modèle, trouve l'étape numéro **1** et suis les numéros. Chaque pièce a sa propre forme et sa propre couleur. Regarde les illustrations, trouve les pièces qui correspondent à ce que tu vois et assemble-les. Pour t'aider pendant que tu construis, oriente ton modèle dans le même sens que les instructions. Les flèches t'indiquent où les pièces s'assemblent, mais les points de raccordement n'ont pas tous des flèches. Les pièces de couleur délavée sont celles que tu as déjà assemblées.

Connectors

There are blue and gray connectors with special long slots. They slide together as you see in the pictures. Push these parts together until you hear a "click."

Connecteurs

Tu peux assembler ces connecteurs tout à fait uniques en les faisant glisser l'un avec l'autre. Pousse fort jusqu'à ce que tu entendes un « clic ».

Spacers

There are places in your model where you need to add blue and silver spacers. Be sure to use the right color and count them carefully.

Espaceurs

Il y a des endroits sur ton modèle où tu auras besoin de te servir d'espaceurs. Assure-toi d'utiliser la bonne couleur et le nombre d'espaceurs indiqué sur les instructions.

Motor

The car will go in the direction of the arrows on top of the motor. Always wait a few seconds after turning the motor on before gently pushing the car towards the motor.

Moteur

La direction de la voiture correspond à l'orientation de la flèche sur le moteur. Toujours attendre quelques secondes après avoir démarré le moteur avant de pousser doucement la voiture vers le moteur.

Before you start building, be sure to compare the parts in your set with the parts list here. If anything is missing, call or write to us using the information on the back cover. We are here to help you!

To attach the car, undo a piece of track and then thread the car wheels over the top side of the track. Then join the track pieces together. If the car gets stuck on the way down, make sure it is not hitting any K'NEX parts.

Pour fixer les voiture, défais un tronçon du circuit, puis fais passer les roues de la voiture par-dessus le côté supérieur du circuit. Assemble ensuite les tronçons du circuit. Si des voiture restent coincées au cours de la descente, vérifie que la voiture ne heurte pas des pièces K'NEX.
